PROFILE

I am a student receiving a bachelor's in data Analytics. I am currently developing projects to showcase and build my data analyzing hard skills. Also, I have joined the estuary and mass communication clubs to build my communication skills. I am seeking internships to target my weaknesses and build as much experience before I graduate.

SKILLS

Python - beginner

HTML - intermediate

CSS - intermediate

Javascript – intermediate

Microsoft Office -

intermediate

EXPERIENCE

Pizza Delivery chat bot

2024

The pizza delivery chat bot was a python project developed in my introduction to programming class. This was the first multiline python code I developed giving me a solid foundation to understanding python programming

Data collection and Cleaning Project

In progress

In this project, I will be learning how to collect, clean and analyze data. Throughout the process, I will be learning the basics of SQL, Python and other necessary skills needed to complete the project.
